

LETTER

TARGETING GREEN HORNS

An attempt on the part of SFI, the student wing of CPM is reported to be afoot to introduce the students of the Schools of West Bengal. Taking advantage of ignorance and gullibility of the students the dominant political party will try to spread their political propaganda among the green horns. Indoctrination may be allowed in the institutions of higher studies. But to experiment it over the school-goers certainly has a pernicious effect upon their malleable mind.
